## Check the Users Who Borrowed the Network License from Your Server (2020 - 2022)

2609 GstarCAD Malaysia September 30, 2019 Activate / Deactivate 0 2979

GstarCAD network license allows borrowing the node for a period from the server. The license manager list shows the lent node number and the available nodes left. The Lend Detail shows the lend information.

For example: If your network license has two nodes totally, one user borrowed a node from the server, so only one available node left that can be activated or borrowed.

License Key	Product Version	Expiration	License State	Node	Borrow	Refresh
721A-E307-6D01-0000-82BD-2EB5-0000-0300		31-Oct-2019		2	0	Online Activate

## Note?

- 1. Some security software (anti-virus software) will cause GstarCAD Network License Manager to run abnormally; you can quit the security software or add GstarCAD Network License Manager to the credible path.
- 2. The Server computer name should be in English.
- 3. If the server computer has the old GstarCAD License Manager version installed, please turn it off firstly, then install the latest GstarCAD Network License Manager
